

Moose Jaw, Saskatchewan.

November 19, 1962.

The Mayor and Members of Council,  
City Hall,  
MOOSE JAW, Sask.

Ladies and Gentlemen:

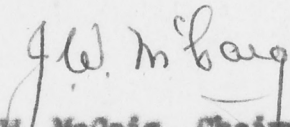

We are pleased to place in your hands a copy of the recent survey made by two young Moose Jaw men - Mr. Frank Proto and Mr. Gordon Carney.

While the material contained in the report is available to anyone, the report represents a tremendous amount of work done for us at a most reasonable cost, and places, in one volume, most of the information required by anyone wishing to make a fast survey of our community.

A report of this nature is merely one of the tools required in community development and, unless we wish this one to join its many predecessors - gathering dust on a shelf - we must hire a man to proceed to put the report to use and further our program of developing our Community.

We must follow out the suggestion in the foreword of the report of conducting a survey of present industry in Moose Jaw and must also take a good look at commercial businesses with the thought of trying to get them, with our co-operation, more active in promoting Moose Jaw as the best place in which to do business.

Yours truly,

  
J. W. McCaig, Chairman,  
Industrial Committee.
